

# Play panel

## Technical specification

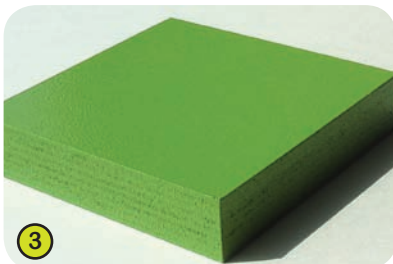

G1901 / G1902 / G1903 / G1904 / G1906  
G1908 / G1909 / G1910 / G1914 / G1917

- 1- **The vertical 95mm square posts** are made of laminated timber, which have not been treated with chrome or arsenic. Splinter-free, the laminate provides great strength and dimensional stability. The posts are protected from wear and tear caused by fungi, insects and termites.

- 2- **The boards** are made of solid wood with autoclave treatment, 95x36mm.

- 3- **The lacquered panels** are made from very high quality plywood 21mm thick, made of alternate layers of thin birch, which offers longevity and an exceptional mechanical strength. The colours are applied by electrostatic spraying of two-component polyurethane lacquer that is free of heavy metals, to ensure high levels of resistance to potentially aggressive chemicals such as anti-graffiti cleaning products.

- 4- **The fixings** are made of stainless steel and protected by anti-vandalism polyamide caps.
