

Watson Road Play Area

Themed Play to Spark Imaginations!

Client: Blackpool Council
Address: Watson Road, Blackpool
Budget: £22,000
Age Range: Toddler, Junior & Inclusive

Project Story

Blackpool council came to us with a project. they wanted to add equipment to Watson road park. They needed a range of equipment that offered plenty of play value as well as providing varied types of play activities.

We decided to provide a number of Themed items to the play area, including our train, bike and helicopter springers, which create a number of play activities including imaginative play. Imaginative play allows the children to create games around the new equipment and act out their imaginary stories.

> The funding for this project has seen a tired and outdated play area transformed into a modern exciting facility for younger visitors to the park. Parks are a really important part of creating healthy communities, where children can get outside and enjoy some fun exercise, and we now have a first class facility to enjoy in a much loved community space.

Themed Play Equipment

Play is an essential part of children's lives. Simply by having fun children discover themselves, develop and shape their personalities. Through moving, interacting and using their imagination, their confidence and independence increases.

Themed equipment provides children, aged from 2 to 8 years, with a stage in the playground on which to act out stories and live numerous adventures.
