

# Trim Trail

## Technical specification

- 1- **The vertical 95mm square posts** are made of laminated timber, which have not been treated with chrome or arsenic. Splinter-free, the laminate provides great strength and dimensional stability. The posts are protected from wear and tear caused by fungi, insects and termites.  
The posts are protected by injected polyamide caps.

- 2- **The boards** are made of planks in solid pine wood, 145x46mm.

- 3- **The tubes** are made of stainless steel, Ø 40mm, guaranteeing lasting durability and reliability of the equipment.

- 4- **The information panels** are made with a compact material 13mm thick. It is made up of 70% of softwood fibres and 30% of thermosetting resin, and it stands up to weathering very well (sun, rain, damp, etc.). The coloured surfaces are treated with products based on coloured acrylic polyurethane resins; this enables them to stand up well to UV radiation and resist damage.

- 5- **The panels (JPS16J and JPS16S)** are 22mm thick panels made up of alternating layers of birch and pine. The surface is coated with a film of anti-slip phenolic resin.

- 6- **The stainless steel fixings** are protected by polyamide anti-vandalism caps.
