technical specification

J1012

- 1- **The sliding surface** is made of stainless steel 2mm thick, which are shaped, bent and rolled from one piece.

- 2- **The side elements, the steps and the platform** consist of coloured panels made from a compact material 13mm thick (HPL). Robust material, it stands up to weathering very well and makes the equipment vandal resistant.

- 3- **The fixings** are made of stainless steel and protected by anti-vandalism polyamide caps.
