

Slides

J1120 / J1121 / J1122 / J1123 / J1124 Technical Specification

1- The “Kayak” slides are made of rotary moulded polyethylene.

2- The stainless steel fixings are protected by polyamide anti-vandal caps.

3- The 125mm diameter posts are made of lacquered galvanised steel. The two-tone grey graining finish has a slightly undulating surface for increased scratch resistance.

4- The “Durax” platform floors are machined from 22mm plywood panels made up of fine layers of birch. The surface is coated with a non-slip thermoplastic polyolefin film, and circled with a 40mm diameter stainless steel tube.
