

# Rotating equipment - J2594

## Technical specification

1- **The 125mm round posts** are made of laminated timber, which have not been treated with chrome or arsenic. Splinter-free, the laminate provides great strength and dimensional stability. The posts are protected from wear and tear caused by fungi, insects and termites.

2- **The tubes** are made of stainless steel guaranteeing lasting durability and reliability of the equipment.  
**Injection moulded polyamide** fixings are non-toxic, non-flammable, shock resistant and ultraviolet radiation resistant. They give the units their sturdiness and help them to stand up to vandalism.

3- **Injection moulded polyamide fixings** connect the posts with the various play features.

4- **The swing seats** are made of shock absorbing moulded honeycomb rubber.

5- **The fixings** are made of stainless steel and are protected by polyamide anti-vandal caps.
