## Technical specification

### J2825

1- **The tubes** are made of stainless steel guaranteeing lasting durability and reliability of the equipment.

The various play features are connected to the posts by **injection moulded polyamide fixings** that are non-toxic, non-flammable, shock resistant and ultraviolet radiation resistant. They give the units their sturdiness and help them to stand up to vandalism.

2- **The stainless steel fixings** are protected by polyamide anti-vandal caps.
