

Educational play technical specification

J3401

- 1- **The coloured panels** are made with a compact material 13mm thick. It is made up of 70% of softwood fibres and 30% of thermosetting resin, and it stands up to weathering very well (sun, rain, damp, etc.). The coloured surfaces are treated with products based on coloured acrylic polyurethane resins; this enables them to stand up well to UV radiation and resist damage.

- 2- **The vertical 95mm square posts** are made of laminated timber, which have not been treated with chrome or arsenic. Splinter-free, the laminate provides great strength and dimensional stability. The posts are protected from wear and tear caused by fungi, insects and termites. The posts are protected by injected polyamide caps.

- 3- **The stainless steel fixings** are protected by polyamide anti-vandalism caps.
