

Skysurf® - J3505

Technical specification

1- **The supporting arm** is made of a 60x60mm stainless steel tube with twin curves. The twin reinforcing struts give the supporting structure its rigidity.

The unit as a whole is bolted to the plate on the galvanised steel post (Ø 140mm).

2- **The platform** is made with a non-slip rubber overmould. Its rotation system is inserted in a structure made entirely of stainless steel (Ø 110mm).

3- **The grip section** of the stainless steel handle is overmoulded with rubber to give a good grip.

4- **The stainless steel fixings** are protected by polyamide anti-vandal caps.
