

Swings

Technical specification

J474

- 1- **The support legs** are made of galvanized steel, diameter 60mm.

- 2- **The horizontal beam of the swing** is made of non-painted galvanized steel. **The swing bearings** are made of stainless steel.

- 3- **The swing seats** are made of a stainless steel frame with a rubber seat pad incorporating a stainless steel cable. **The swing chains** are made of galvanized steel.

- 4- **The coloured panels** are manufactured from 13mm composite compact made up of softwood fibre (70%) and phenolic binder (30%). The material offers excellent resistance in all weather conditions (sun, rain, humidity...). The coloured surfaces are obtained using pigmented resins that provide good levels of resistance to ultraviolet radiation and aggressive cleaning products.

- 5- **The fixings** are made of stainless steel and protected by anti-vandalism polyamide caps.
