

# Balancing and climbing equipment

## Technical specification

### J4815

- 1- **The 125mm diameter post** is made of lacquered galvanised steel. The two-tone grey graining finish has a slightly undulating surface for increased scratch resistance.

- 2- **The 16mm diameter ropes** are made of galvanised steel cable covered with polypropylene.  
**The cables** are linked together and held in place by injected polyamide spheres.

- 3- **The net fittings** are made of polyamide.  
The fittings are composed of two distinct parts for ease of maintenance of individual strands.

- 4- **The platform** is made from a textured and non-slip compact material (HPL), 19mm thick. The surface is circled with a 40mm diameter stainless steel tube.

- 5- **The fixings** are made of stainless steel and protected by anti-vandalism polyamide caps.
