

Alexandra Primary School

A New Challenge For Pupils

Client: Alexandra Primary School
Address: Denbigh Road, Hounslow, TW3 4DU
Budget: £36,000
Age Range: 6-10 years

Project Story

Alexandra School wanted to provide a challenge for pupils during their free time in the school playground. The health and fitness statistics for children in Hounslow is very poor against the national average so the challenge for this project was providing the right equipment that could tackle this problem.

The introduction of a play and fitness trail provides physical challenge and also allows organised activities and courses to take place. The children at the school were involved in the design and installation as both Proludic and the school felt this was an important educational journey for them. It is also created ownership for them over the site completion as they felt a part of all the hard work that had gone into making the playground a reality. Today the playground is still popular at the school and it continues to keep all the pupils happy at break times.

After

Before

We were extremely happy with the support Proludic gave us during the whole process. They understood our aim for the outside space and delivered a design that met the needs of our pupils. The activity levels within their free time has certainly increased.

Play for Learning

Playing is a fundamental requirement for a child's development, helping them evolve, both in terms of motor skills and at sensory, cognitive, creative and social levels. By playing children actively participate in their own development and growth. Play is, therefore, both the inherent mode of expression for children and is an important learning tool.
