

# Doeshill & Heybridge Play Areas

## New Play Area For Local Communities

Client: Basildon Borough Council

Address: Doeshill Drive, SS12 9RD & Heybridge Drive, SS12 9AG

Budget: £60,000

Age Range: Toddler, Junior & Families

### Project Story

Basildon Borough Council invested in new equipment for two of their play areas, Dosehill and Heybridge Drive. The two play areas are about 200m away from each other, so it was important to design them to be as different as possible. The play areas needed to be low level, exciting, fresh as well as being a safe and engaging area for families and children to enjoy.

The equipment needed to blend in with its surroundings seamlessly as both areas are located close to residential housing. Inclusive elements have been an integral part to the design of both Dosehill and Heybridge. Within our design 5 inclusive items were included at Dosehill and 6 inclusive items at Heybridge.

After

We are committed to providing top quality facilities for young people throughout the borough, and I'm sure children in Wickford will enjoy having two new outdoor areas in which to play and keep active.

- Councillor Kevin Blake, Basildon Council

These play areas are a testament to the wide range of equipment that Proludic have along with innovative design.

- Grant Taylor, Project Development Officer

### Inclusive Play

At Proludic, inclusion is a key aspect of our philosophy because we believe that all children should have access to play and to the same play facilities.

Our equipment and our designs have always been intended to create positive interaction between each play element and child, but also between the child and their environment.
