

Donnington Drive

Golden Play Area at The End of The Rainbow

Client: Test Valley Borough Council

Address: Donnington Drive, Chandler's Ford, Eastleigh, SO53 3PD

Budget: £40,000

Age Range: Toddlers, Families & Inclusive

Project Story

The existing play area at Donnington Drive was getting old and in need of refurbishment. The play area is currently located within the centre of a surrounding tree line that is overhanging the play area that was causing maintenance issues and leaf clearing was an ongoing task.

Proludic were chosen to work in partnerships with Test Valley Borough Council. We proposed to relocate the play area to an adjacent open area of grass next to the current play area. This would allow us to install all of the new equipment away from the troubling tree line and enable us to create a new and exciting layout. As a company we are extremely passionate about play area design and Donnington Drive was an opportunity to showcase our flare for innovative and unique play spaces. The bright coloured rainbow nestled within the surfacing embraces all the exciting new equipment allowing children to explore and discover all of the new play experiences that we have included for the new play area.

Diabolo MPU

Playhouse

Diabolo Equipment

Diabolo provides a variety of activities in a compact space, for children aged 2-10 years. It will bring even the smallest areas to life.

All the classic types of play equipment are included to engage both younger and older children: slides, fireman's poles, climbing walls, and hiding places are the basic elements in these multi-purpose structures arranged around platforms of 4 different heights.
