

# King George's Field

## Providing More for The Community

Client: Hughenden Valley Village Hall Committee

Address: Coombe Lane, Hughenden, HP14 4NZ

Budget: £13,000

Age Range: Families

### Project Story

The village had rotten wooden equipment removed and some of the residents wanted to raise funds to replace this equipment as it was missed by the children of the village. A committee was formed and they went out to a few play suppliers to see what equipment they wanted and how much money they needed to raise, with dedication and help from the Parish Council the funds were raised.

The committee chose Proludic for a variety of reasons; the customer service, the 3D design which helped raise funds and the type of equipment. The majority of equipment was from the Origin' range, the range reproduces the very essence of what nature has to offer. We installed 7 items altogether, making a trail and utilising the nature of the site. The community came together to celebrate the formal opening of the play area.

After

Before

The young children have used the new equipment every day since installation which is a great testimony to Proludic product quality and installation. A BIG thank you from all Hughenden Valley parents.

*Michael Sole, Company Hughenden Valley Village Hall Chairman*

Origin Log Run

Origin Tightrope Walk

## Origin Range

The Origin' range reproduces the very essence of what nature has to offer: a forest walk, crossing a stream over stepping stones or an uprooted tree trunk, a playhouse made of fallen branches, an adventure trail that includes climbing, sliding and observing. Children's senses are awakened and stimulated by visual and tactile contact with Robinia wood.
