

# Squires Garden Centre, Milford

Garden centres are fun when there is a place to play!

Client: Squires garden centres

Address: Portsmouth Road, Milford, Surrey GU8 5HL

Budget: £40,000

Age Range: Toddlers, Juniors, Families

## Project Story

The play area at Milford had been decommissioned as the play equipment and surfacing were no longer serviceable. Squires wanted a play area that reflected their core business values which would provide equipment that was eco-friendly and from a sustainable resource. Our choice of Robinia timber and the stringent adherence to ISO 14001 along with Proludic's waste management processes meant we were the right partner to deliver for Squires. Origin uses Robinia timber which is FSC certified and reproduces the very essence nature has to offer. Children's senses are awakened and stimulated by tactile and visual contact with Robinia wood. This is a lovely play oasis for children to play whilst their parents focus on their shopping experience at Squires.

After

“ It was a pleasure working with Squires at Milford to upgrade their play facility. We embraced their aspiration to procure a sustainable and environmentally friendly play space that offered maximum play value to children to play on whilst their family visited the centre. The company's environmental policy drives us to take action on the sustainable use of natural resources, and in doing so we can ensure a better quality of life for future generations. Happy children make happy shoppers!

Anne Parkin - Key Accounts Manager, Proludic

Proludic's Origin' Range  
Origin' is a Robinia wood multiplay equipment range is great for natural settings. The range takes inspiration from our natural environment and children's instinctive desire to play and interact with their surroundings. The clean product lines, minimal design and essential play activities are all values which form the fundamental principles of the Origin' range.
